

- Size limitations are 6" x 2" minimum and 72" x 12" maximum for single piece
- Maximum 12" width for floor applications

Core Style	Maximum Vertical Distributed Load (lbs./in. <sup>2</sup> )	Maximum Vertical Live Load (lbs./ft. <sup>2</sup> )	Maximum Horizontal Load (lbs./in. <sup>2</sup> )
A0/A1	300	300	50
B0/B1	200	200	50
C0/C1	250	250	50
D0/D1	250	250	50

Note: For floor options, maximum duct width available is 12". When placing furniture on cores, leg width of furniture should be a minimum of core spacing plus two bar widths to prevent putting a horizontal load on cores.

*Dimensions in inches*
